

Semi Permanent Make Up

Semi Permanent make up, also known as Micropigmentation (not to be confused with Microblading) is a revolutionary method of inserting small amounts of pigment into the dermal layer of the skin evenly. Previously only models, actors and celebrities had access to this art of natural enhancement, but overtime it has become more affordable. Classed as 'make up of the future' once you've completed your treatment you will understand why.

Simulated Hairstroke Eyebrows	£275.00
Fuller, Defined Lip Line & Blush	£350.00

Clinicare Chemical Peels

Cutting Edge cosmeceutical formula

The chemical peel is one of the oldest cosmetic procedures in the world. Today chemical peels are among the most popular and widely recognised methods of improving the health and appearance of skin by removing dead skin cells and encouraging new ones to grow. Chemical peel depth can range from very superficial to deep, although several light depth peels can often achieve similar results to one deeper peel treatment, with less risk and shorter recovery time. For best results a course of 3 is recommended.

Clinicare superficial peels contain a mixture of Glycolic, Lactic and Salicylic Acids to remove the upper layer of the epidermis encouraging regeneration and rejuvenation of new skin cells. The result is the improved clinical appearance of skin with fewer fine lines, a brighter complexion, improved skin tone and a more youthful appearance. The Clinicare peels come in 3 targeted ranges for specific skin indications and are extremely well tolerated with minimum side effects. Your consultation will determine which peel is suitable for your skin type.

Peel Including Gold Collagen Hydrating Mask, With Vibration Massage To Enhance The Absorption Of Properties	£45.00
Course Of 3 Peels	£120.00

Dermaplaning

Dermaplaning is the newest and fastest growing skin treatment in the world! A simple and safe manual exfoliation technique used to remove dead skin cells, vellus hair (peach fuzz) and surface debris from the epidermis to achieve a smooth and glowing complexion.

Using a medical grade scalpel, the surface of the skin is gently scraped using light strokes to remove the top layer of dead skin cell.

Dermaplaning is particularly effective on those with dry or rough skin texture as it can produce a smooth and clearer complexion. It is also recommended to minimize superficial acne scarring, minor scars, uneven skin tone, large pores, fine lines and excess facial hair. The more mature skin which tends to have a build-up of dead cells as cellular turnover slows down with age benefit greatly from dermaplaning.

Dermaplane Facial With Gold Hydrating Mask	£35.00
Dermaplaning Facial With Instant Peel And Gold Hydrating Mask	£45.00
